blake.allen@email.com
LinkedIn | Portfolio

Software engineer with six years of experience building scalable web applications and backend systems. Proficient in JavaScript, Python, and cloud deployment. Recognized for improving performance, reducing load times, and delivering maintainable code across Agile teams.

Professional Experience

Software Engineer

LogicStack Solutions | San Francisco, CA

July 2019 - Present

- Developed API services that supported a 50% increase in platform traffic without compromising speed or stability
- Refactored legacy codebase, reducing page load times by 2.3 seconds and improving Lighthouse scores
- Led migration to AWS infrastructure, cutting hosting costs by 18% and improving deployment efficiency

Junior Developer

Envision Labs | Oakland, CA

August 2017 - June 2019

- Built reusable front-end components using React, enabling faster page development and consistent design
- Integrated third-party authentication and payment gateways, enhancing user trust and app functionality
- Collaborated with QA to implement automated tests, increasing code coverage to 85%
